Draft State Transportation Improvement Program 2016-2025 (STIP) - Feedback

Posted Jan 5 1 Interaction ↔ 143 Days Remaining 📅

What is STIP & STI?

Description

Topic Details

When Gov. Pat McCrory signed the Strategic Transportation Investments (STI) law in June 2013, which created the Strategic Mobility Formula, his goal was to better connect North Carolina and create more jobs. The new Mobility Formula allows NCDOT to more efficiently invest transportation dollars through a data-driven process that addresses statewide and local needs. Over the past year and a half, NCDOT has been working with the legislature, local planning organizations and other stakeholders across the state to implement the STI law and develop the 2016-2025 State Transportation Improvement Program (STIP). The result of these efforts is the Draft STIP, released by the Department in December 2014, and the first one ever under the new data-driven prioritization process.
